EDUCATION

GH Rasoni College Of Engineering
BTech in Computer Science & Engineering

CGPA : 7.89 /10.00
Expected Graduation : June 2024

EXPERIENCE

Software Developer Intern

June 2023 – December 2023

AppXBuild Technologies Pvt Ltd

Hybrid

- Led the development of mobile applications, demonstrating proficiency in various technologies and frameworks. Spearheaded the creation of a user-friendly car washing service app.
- Successfully integrated external APIs for diverse functionalities, including payments, location services, and other crucial features.
- Implemented rigorous testing and optimization strategies to ensure high-performance applications and effectively collaborated with cross-functional teams, showcasing strong communication and teamwork skills.

Artificial Intelligence Intern

May 2023 – June 2023

Pantech E-Learning

Remote

- Acquired valuable industry insights and practical knowledge through online internship experience.
- Demonstrated self-motivation and dedication in successfully completing remote internship assignments.
- Utilized Developed key skills in Deep Learning and AI through virtual collaboration and independent study.

PROJECTS

Smart Attendance System | MERN Stack, Python for Face Recognition

January 2024 – May 2024

- Developed a smart attendance system utilizing geofencing and face recognition for accurate and secure attendance tracking.
- Integrated QR code scanning and a user-friendly interface using React, enhancing user experience and operational efficiency.
- Built robust backend solutions with MongoDB, Express, and Node.js, ensuring secure data handling and storage.
- Implemented real-time attendance monitoring and automated reporting, improving overall system functionality and efficiency.

Car Washing Service Mobile Android App | React Native , Firebase

June 2023 – December

2023

- Experienced in end-to-end development of a successful car washing service app, demonstrating expertise in both frontend technology.
- Designed and implemented a user-friendly interface, ensuring a seamless and enjoyable experience for both customers and service providers.
- Developed and integrated critical features such as real-time tracking, appointment scheduling and secure payment gateways to enhance overall app functionality and real time feedback and costumer care.

Project Management Tool | MERN Stack

December 2023 – April 2024

- Developed a comprehensive project management tool using the MERN stack (MongoDB, Express, React, Node.js), demonstrating full-stack development expertise.
- Implemented core functionalities such as task assignment, progress tracking, and deadline reminders to enhance team collaboration and productivity.
- Built a secure user authentication and role-based access control system, ensuring only authorized users can access sensitive project data.
- Integrated real-time collaboration features like live chat, document sharing, and activity logs to support efficient team communication and coordination.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML/CSS, SQL (Postgres).

Frameworks and Libraries: React, React-Native, Node.js, Express.js , Mongoose, FastAPI,,Jquery,Bootstrap,Typescript,Redux ,SCSS,Tailwind CSS .
